CorelDRAW® Go™

Creative online design made easy.

CorelDRAW Go's intuitive features are easy enough for beginners, yet powerful enough for creators who require more advanced drawing and editing tools than Canva or Adobe Express provide.

Beginner-friendly

- Achieve your design goals quickly with an intuitive user interface, easy-to-use tools, and popular document presets that take the guesswork out of creation.

Much more than a basic graphics app

- Turn your passion into eye-catching graphics with more creative control than you'll get with one-click design applications. You can rely on CorelDRAW Go to add your unique touch without the constraints of template-based graphics software alternatives.

Affordable and accessible

- Create stand-out designs effortlessly with an affordable, web-based graphics app—accessible anytime, anywhere, with flexible monthly or annual subscription options to suit your needs.

What's included?

Intuitive tools. Customizable design templates. Millions of creative assets.

Drawing and painting

Draw, paint, embellish and add textures to your designs with interactive drawing tools and realistic brushes.

Photo editing

Enhance your favorite images with crop, adjust brightness and contrast, fine-tune white balance, perfect hue and saturation, and more.

Mask frames

Turn any shape into a frame for your photos with easy-to-use masking controls.

Vector editing

Transform any shape into a custom creation. CorelDRAW Go's straightforward anchor point and node-editing tools let you mold vector graphics exactly to your vision.

Text add typography

Add type to any design with easy-to-use text tools and access to thousands of fonts.

Templates and stock

Kick off your creativity with thousands of editable designs templates, vector icons, illustrations, and clipart. Plus, discover over six million royalty-free stock photos.

Who's it for?

Whether you're turning your passion into profit or exploring creative projects for fun, CorelDRAW Go is here to empower your journey.
Creative side hustlers:
(earning income from graphics, but not as a primary job)
- Freelance designer
- Marketplace shop owner
- Selling artwork through a third-party marketplace
- Content creator (Instagram, YouTube, TikTok)

Creative consumers:
(non-professionals not generating income from their designs)
- Design enthusiast
- Knowledge worker in business
- Student
- Teacher or trainer

What is it for?

Unique use cases:

- **Merchandise designer side hustler:**

  they need to be unique to sell, however they have very limited ability to go beyond templates in competitor apps.

- **Marketing specialist:**

  A wearer of many hats in a small business that doesn't have in-house designers, and/or can't afford a full suite of professional tools. They have no formal design training but are tasked with creating content that requires more advanced tools.
