

How the Royal College of Nursing Reduced Document Redaction time by 95%

SPEED

Turning hours of internal document workflows to minutes instantly

STABILITY

Reliably scan documents with a 99% accuracy rate

DESIGN

An intuitive layout allowing users to quickly be up and running

In an effort to streamline redaction, there was search for an automated redaction solution. In this search for an automated solution, multiple redaction solutions were tested. According to Carl, what set iDox.ai apart from the competitors was its **SPEED, STABILITY, and DESIGN.**

The switch to iDox.ai has made a huge difference for Royal College of Nursing, allowing their employees to perform important tasks instead of wasting time manually redacting documents. With the 97% time savings, RCN has been able to achieve their deadlines with ease, creating a much more efficient and effective organization.

“I highly recommend idox.ai to anybody who needs to go through the manual process of redaction. It is a brilliant interface that is stable, fast and user friendly. I tried many other redaction products and iDox.ai was head and shoulders above the rest.”

--Carl Bevan, Information Governance Officer, Royal College of Nursing
